

# Class 4 Spring Term Round-Up

It has been a jam-packed term full of learning and memory-making for Class 4! In Spring 1, Year 5 enjoyed their residential trip to Borwick Hall and the Year 4s took part in some lovely activities with Miss Turner. We have enjoyed the build up to Easter, learning about what happened to Jesus at the most important time of his life. It has been wonderful to see so many children loving their learning in RE and relating to their own lives. In Maths, we have been learning all about fractions; adding, subtracting and multiplying, as well as finding equivalent fractions using conversion. Ask your child about unit fractions and what a numerator and denominator are! In English, we have finished our unit on "The Butterfly Lion" and each child has written a fantastic alternative ending! In Science, we have enjoyed learning about properties of materials, including a very famous scientist who invented tarmac (ask your child all about this process!). All in all, it has been a wonderful term and everyone has worked incredibly hard. I wish you all a happy and blessed Easter, see you in the Summer Term! Mrs Griffin 😊

## Certificate Winners:

**Christian Value (hope)-** Lacey

For a fantastic attitude towards your learning and persevering when things are tricky!

**Curriculum Award** - Max

For putting 100% effort into every lesson! I really enjoyed reading your alternative ending to the story "The Butterfly Lion".

**Star Writer** - Oliver

For a beautifully written ending to the story, you worked incredibly hard to achieve your "steps to success".

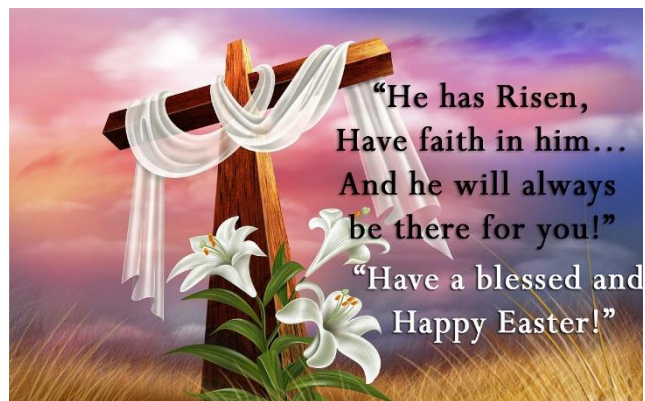

## Attendance Notice for Summer Term

Please ensure that your child is in school every day, on time. This will give them the best possible chances for making the progress needed to achieve their very best.

## Borwick 2025

Year 5 made life-long memories together - I know Year 4 are excited for their day trip to Borwick Hall in the coming weeks!

From Mrs Griffin and Miss Turner 😊
